Executive Director's Report – March 14, 2017

FROM: Ted Lewis

- RE: Monthly Report February / March 2017
- 2017 Two Rivers Bill Mike Gionforte called on March 8 to discuss our bill for 2017. He says our flow is up over the year before so we will have a small increase (he indicated 2.04 million we budgeted 2.00 million). He also went over some confusing changes related to the redevelopment of Fort Monmouth I will try to explain further at our meeting.
- Meeting With FMERA On March 3 we met with FMERA at their request (Ben C. Herman R., Christine and John from T&M and me). The meeting did not seem to accomplish very much – we keep telling them they will have to do the research and develop a plan which we can respond to. The engineer may be able to add more at our meeting.
- 4. Brookwood P.S. Replacement Contract documents (plans and specs.) for the pump station replacement were delivered March 8 and are being reviewed by the engineering subcommittee and Richard. It should be possible to authorize the engineer to go out to bid at our March meeting.
- 7. Office Software Upgrade Following the board's approval last month, we sent a purchase order to Edmunds and received an email from them to initiate the conversion process.
- Additional Office Space The Borough Council discussed the proposed renovations at their workshop of February 22 but I am beginning to have doubts that it is going to happen – I'll explain at the meeting
- **9. Tinton Falls Flow Review** We (Rich and I) are continuing to coordinate an up to date list of properties in Tinton Falls that flow into our system.
- **10. Impound Yard –** The agreement with the borough needs to be renewed the addendum to allow Oceanport and West Long Branch to also utilize it was never employed.

CARRIED ITEMS:

- 8. Maintenance Building Repairs Meet to discuss paving
- **10. Howard Commons** No Change
- **11. Fieldstone Court** No new information.
- 12. Two Rivers / Borough Issue No new information.
